**Public and Private Partners Working Together**

To Create A

“Fire Safe California”
The Fire Safe Council is a coalition of public and private sector organizations that share a common, vested interest in reducing losses from wildfire.

Development in California has created wildland-urban interface communities amid the state’s fire-dependent landscapes. The corresponding increased demand for fire services in the wildland-urban interface can only be met with a proactive community-based response.

The solution to the state's wildfire crisis is creating communities that can stand against wildfire, because for residents and businesses, living in California means learning to live with fire.

The Fire Safe Council empowers communities to become fire safe.

www.firesafecouncil.org
The Fire Safe Council hosts one of the best online resources for fire safety in California:

Local Council Sites
Set up your Council site and visit other Councils’, hosted by the statewide Council.

Links
Link to statewide Council member and other sites with relevant fire safe information.

Fire Safe Council Handbook
The definitive guide on how to form a Council.

Fire Safe Inside and Out
Fire safety tips and strategies for inside and outside the home.
